Description

We are the leading company in the provision of private healthcare in Portugal, currently managing 2 public hospitals, in public-private partnerships, and 16 CUF health units spread throughout Portugal, including 7 hospitals.

In 2017, we launched [Grow Health](#), a program through which startups can develop joint pilot projects with the Group's companies and test their products and services in a real market environment. Some of our areas of interest are: personalized medicine, prevention and well-being, chronic diseases' management, artificial intelligence, VR and robotics.
