Idinet Innovation Management

- Idinet® allows you to access your documents and review your tasks anywhere.
- Define unique procedures, setting goals and objectives to your working group.
- Build most innovative teams: speedy access to knowledge through online libraries, documents classified by competence and a brainstorming space for keeping safe your ideas.
- Make links between your colleagues thanks to the forums, the alert system, internal communication blocks... Idinet® decreases the distances.

We offer you a solution to optimize your internal management and an application for collaborative work.

We are looking for any kind of organization that needs a collaborative tool for managing internal and external projects, work teams and even their aids (H2020 , Eurostars ...) and definitively want to use IDINET® as a meeting point every day.
