Bilateral Meetings

- Wednesday (10:00 - 12:30)
- Wednesday (14:00 - 16:30)

Description

The Instituto de Medicina Molecular João Lobo Antunes (iMM) is a leading Portuguese private non-profit research institute that offers a vibrant scientific environment, aiming to nurture innovative ideias in basic, clinical and translational biomedical research. Created in 2002, iMM has established itself as a leading national and internationally competitive biomedical institute. Its strategy has been defined by promotion of excellence, leveraged by high-quality human resources, increasing expenditure in infrastructures and knowledge transfer to the society. iMM is an inclusive, equal opportunity employer offering attractive conditions and benefits.
